ALUMNI ASSOCIATION

An alumni association or alumnae association is an association of graduates or, more broadly, of former students. Alumni are great role models for current students and are often well placed to offer practical support to students as they start their careers. Alumni are often in the position to engage the expertise of the institution in their professional lives. One of the main purposes of alumni associations is to support a network of former graduates who will, in turn, help to raise the profile of the institution.

The ultimate goal of any alumni association is to build a strong network that can support and complement the wider aims of institution. The association fills the gap between the present and alumni students and helps in building professionalism. It uplifts the potentialities of the students by organizing guest lectures, training sessions, conducting inter/intra college competitions. The executive committee of the alumni association consists of the following members for the academic year 2023-24
