## IMPLEMENTATION OF WASTE MANAGEMENT IN OUR COLLEGE

JSS Mahavidyapeetha Mysuru is running a various institution. Under that JSS Institute of Education is one among them. JSS Institute of Education has making a policy related to the Waste management system and also detailed procedure of implementing it effectively. Our institution is having the Water management system through which it's utilizing water resources by not wasting Water. We have conservative initiatives such as proper maintaining bore well, tanks etc.

Our college has well planned water management system and put efforts to maintain and conserve water resources by adopting various measures such as regular check-up of water leakages, Taps, pipes and cleaning water tank regularly and we have a water purifier system with Reverse Osmosis (RO) Technology for drinking water. All the teacher educator and student teachers put effort in conserving water resource by avoiding unnecessary wastage of Water.

The institution is dedicated to safeguarding the environment through a well-defined and systematic waste management policy. Our approach encompasses a range of strategies designed to handle various types of waste efficiently and sustainably. To manage solid waste effectively, our institution has established a comprehensive system for the collection and disposal of waste materials generated across the campus.

Our institution takes a proactive approach to managing bio-waste, we utilize this in vermicomposting, the e-waste is handed over to a certified agency specializing in the scientific disposal and recycling of electronic materials. Food waste generated in the hostel and canteen is directed to a nearby piggery.

This expanded version provides a thorough explanation of each waste management practice, detailing the institution's commitment to eco-friendly environmental sustainability.
